

**EE/CpE 423-424
WEEKLY STATUS REPORT**

Group #	04	Week ending: (Saturday)	09/24/16		Report #	02
Project Title:	ChronoSTAT					
Group Leader:	Allison Butler	Advisor:	Bryan Ackland			
Sponsor/Client:						
Total number of person-hours spent on project by group during past week:						
Is project on schedule?			Yes	[x]	No	[]

Weekly status: Meeting with professors and researching options

Weekly report is due to Senior Design Coordinator and TA by Noon Monday. Email submission to bmcnair@stevens.edu and TA. Copy should be sent to advisor

EE/CpE 423-424
WEEKLY STATUS REPORT

- Spoke to biomedical professor about the different sensors we could use.
 - Professor Ritter recommended that we narrow down our product to detecting one disease or group of diseases and advocated specifically for diabetes 2. He recommended we look into the science of existing products and learn from them. He volunteered his expertise on the body and volunteered some texts for reference once we select our topic.
 - Professor Vinjamuri recommended we include motion detection (probably a gyroscope and accelerometer) He also recommended that we pick a single illness or family of illnesses to focus on.
- Built the website to specifications from Technogenesis
- Decided to reach out to the Stevens Counselling Center next week to get input on focusing the project on mental or neurological illnesses.

I pledge my honor that I have abided by the Stevens Honor System.
